As I write this letter, the children are busy in their classrooms studying dogs and other pets. The teachers have worked very hard transforming the classrooms into kennels, pet stores, veterinary clinics, and one class even has a dog agility course. The project approach begins with the children asking questions and over the course of the next few weeks, the questions will be answered through research and discovery. At the end of the study, the teachers will create posters as a reflection of the learning which took place. These posters will be a snapshot of several weeks of learning to share with parents and others who visit our program.

February is the perfect opportunity to provide intentional teaching on love, friendship, kindness and compassion. Be on the lookout for information on the Friendship parties for the classrooms.

You are all well aware that the weather in Texas can change rapidly. Please make sure your child is dressed appropriately and has extra clothing in his/her cubby for those days which begin near 70 and end in the 40’s or 50’s. The children will spend time outside in the morning and the afternoon so appropriate clothing is a must.

“Children are not a distraction from more important work. They are the most important work.”

John Trainer, M.D.
Happy Friendship Day from the Dolphins!
Howdy All,

The time sure is flying. I can’t believe it is already February. We had a great month enjoying all the fun activities. We have some of my favorite themes in the month of February. We will talk about friendship the first week and Hearts the next. We will study about Dental Health which is a fun theme too. Last but not least, we will start our Dog project and carry that into the first week of March. We will touch during the month on Black History and it is so important for them to hear some of the remarkable stories.

We have grown leaps and bounds. They have started sitting for a short story and a few songs. We are pretty much all walkers and no more bottles. Our language is really starting to show. I really still enjoy the cute little signs they do. Our little princess Hai-ley is a chatty girl and if you ask her she can point out each one of her friends! Pretty amazing! She is really into the movie Frozen and even refers to herself as Elsa, how cute is that? Our little Zola is a sweetie. She is as fast as lightning. She was a world traveler over the break and spent lots of time with family. She is getting so big! Beau is really exceeding in everything. I don’t think there is anything he would not try! Reminds me of that quote “No Fear”. Avery is now walking everywhere and loves to sit and read books; he is our little scholar. Benjamin is right behind him on the walking. He is ever so careful. He loves the book Moo Ba La La La and loves when Mrs. Andrea sings the La La La! I think he may be the only one who enjoys my singing Ha Ha! Just kidding! He is quick to keep his friends on the right path. He loves to sign no when he sees them do something they are not supposed to do.

Love, Mrs. Andrea
Hive Happening

We would like to wish Ms. Shaymaa good luck on her endeavor. Please help me welcome Ms. Michelle as our newest bumblebee.

This month we will be focusing on many different projects. We will be finishing up the study of Dogs the first week of February, which will lead us into pets. We encourage you to please send any pictures of your family with dogs, or any pets that you might have or like to have. We would also enjoy if any of you would like to come and share your pets with the class, read a book with the children or create an activity to do with the class. Please check with your teacher for scheduling time to visit our classroom.

February 11, 2016 will be our friendship party. We will be doing a friendship activity throughout the day and enjoying a delicious snack after we play outside at 4:00. Please come enjoy a wonderful snack with your child and their friends.

Bee Reminders
~Please check your child’s daily for any items they might need
~Please don’t forget to sign your child in and out
~Please provide a jacket with your child’s name in it for outside play.

Teacher Schedule
Mrs. Jamie  Ms. Michelle
M-W-F: 7:30-4:30  M-F: 8:30-5:30
T-Th: 7:30-2:00

February Themes
• February 1-5: Dogs
• February 8-19: Pets

Monthly
• Shape: Heart
• Color: Pink
• Number: 8

Honey-Sweet Quote
How sweet it is to be loved by you.
Howdy Parents,

The month of January flew by and children did a great job getting back into the routine. They enjoyed learning about winter, snowmen and dogs.

Our spring semester is off to a great start. We would like to welcome our new friend Alice to the Cardinals class! We are all enjoyed getting to know her. We will discuss dental health and how to keep our teeth clean. We will read stories and do different activities with dental care. The Cardinals class will talk about the color pink. Then we will discuss two colors that make the color pink, red and white. It’s going to be fun! Also this month, we have more children begin toilet training, and we will continue working on pulling our pants up and down on our own as well as appropriate bathroom procedures. To help with this, we ask that you please send your child in clothing they are able to pull up and down on their own.

We will have our Friendship Party on Wednesday, February 10th at 3:30pm. There will be more information about this coming soon. Please feel free to join us during this time to help us celebrate.

Important dates remember:
- Wednesday, February 10th at 3:30pm is our Friendship Party
- Ms. Rebecca will be out February 11th through the 12th
Hello Parents,

Welcome to the second month of the year. The children have adjusted nicely, and we are back to our daily, normal routine. We are excited about this month, and have planned lots of fun stories to read and activities for children to do. It is going to be tons of fun! We will be talking a lot about pets this month. First, we will be enjoying our two-week dog project the first two weeks of February. The following two weeks, we will expand from dogs, and discuss pets in general.

February is also the month of three important life skills. February is the international month of friendship. We will honor the international month of friendship with stories, discussions, and encouragement on how to show love to one another and pets. We will have many art explorations using thematic colors and heart shapes. Our reading focus for the week of February 8th will be Sam McBratney’s “Guess How Much I Love You”. Circle time and centers will be used to promote friendship. Simultaneously, the children will continue to improve on shapes, colors, and number identification using books, puzzles, flashcards, and games. The activities for children to build their life and self-help skills will continue. Whew! The kids will have a lot of fun!

Finally, a couple of announcements and reminders: First, we have a celebration planned for our friendship party on Thursday, February 11th at 2:15pm. You’re encouraged to bring a friendship gift for your child to share with his or her classmates. Second, please look through your child’s cubby to make sure he or she has extra change of clothes. Please remember to dress your child in easy to use clothing with an elastic waistband. Children should wear easy on and off pants during potty training. We prefer sweat pant like bottoms until they are physically capable of doing snaps and buttons. Clothes such as overalls, pants with belts, snaps and buttons, blue jeans and suspenders are hard to manage when in a hurry to make it to the potty in time. Please do not send them in anything that requires us to remove the top to get to the bottom. Please keep this in mind when dressing your child in the morning.

Happy Friendship Month ~ Share the LOVE!!

Important Reminders:
• Please make sure that your child’s extra clothes are complete and that they are appropriate for the weather.
• Please make sure that all of your child’s clothes are clearly labeled.
• Please remember to sign your child in/out every day.
We are glad everyone is back from winter break! The children settled nicely back into our school routine. We know the spring semester will be filled exciting project approach studies. We are hearing more language development each day.

It was a fun learning about the winter season in January. Winter is one of Ms. Sandy’s favorite studies. We pretended to ice skate, throw snowballs and baked cookies to share! Even without the snow, you can try making “snow” angels at home.

There is so much happening in February! There is Ground Hog Day, Valentine’s Day, President’s Day, Black History Month and a Leap Year. We will highlight a famous black American each week. We will have our Friendship Party on Thursday, February 11th. Please place it on your calendar and plan to join us for the fun! There will be more information to come.

All the children are now trying to use the toilet even if they have not been successful. They are excited to do so and are proud of themselves. We hope that you will encourage them to do so at home. It is our goal to master this skill before transitioning to a new class in August.

Parent Tip: Ground Hog Day is a good time to talk about how to make shadows. In the evening, you can use a flashlight to make shadows on a wall. Bunnies, ducks and trees are easy to make with your hand. You can use your imagination to create others things or go to http://www.instructables.com/id/Basic Shadow-Puppets for ideas. Children enjoy exploring with a flashlight.

On a sunny day, you can make shadows using the sun and your body. The children will enjoy trying to step on your shadow!
HUMMING BIRDS  Lead Teacher: Martey Heard  
Teacher: Elaine Moore

We hope you have all settled into the new semester! The Hummingbirds are moving right along! In January we spent some time reviewing skills that were introduced before the Winter break. The children had many hands on learning experiences. As we discussed the Winter season we focused on the concept of things that are cold. We painted with ice, and even experimented with various ways of making the ice melt.

As we move into February we will end our project with dogs, and proceed into other kinds of pets. We will end the month with a two week project on Dr. Seuss. This will be a great opportunity to introduce the concept of rhyming words and opposites, as many Dr. Seuss books contain these elements. February is also Black History Month. Each week we will highlight an African American inventor that made important contributions to our country. We will feature books by Ezra Jack Keats, Although he was not an African American he felt it was important to create children’s books that showed individuals of many different cultures. The children are sure to enjoy sampling potato chips when we discuss George Crumb, and how he invented the potato chip. Garret Morgan invented the traffic light, making traveling a safer experience. Jan Ernst Matzeliger saw the need for a more efficient way to manufacture shoes and created the shoe making machine. These are just a few of the individuals we will learn about this month!

The month of February is also Dental Health Month. This would be a great time to emphasize dental hygiene with your child. If your child has never been to the dentist this is the perfect opportunity to schedule your child’s first visit. Demonstrate proper brushing techniques, and allow your child to practice them independently. Set a timer in their bathroom so your child knows when they are done. Typically it is advised to encourage brushing for a period of about two minutes, twice a day.

Reminders

1. If you, or anyone you know has any expertise related to our coming projects please let us know. We would love to have “experts” come in and talk with the children to enrich their learning experiences. This can be sharing a book related to the project, or showing actual objects that these people use on a day to day basis!

2. We will celebrate all the February birthdays on February 11th in conjunction with our Friendship party. We will post a sign-up sheet beside the daily sign in and out sheet.

3. Please label the inside of your child’s jackets and hats. There are a few children that have very similar coats, and we want to make sure their belongings can be easily identified. It is a rare and unusual occasion for Elaine and I to both be out of the classroom, but if that circumstance should occur, the TA’s need to be able to quickly and efficiently identify each child’s outside gear.

Thank you!  
Mrs. Martey & Ms. Elaine

SEALS  Lead Teacher: Alissa Montminy

Howdy Seals Parents!

The year is already off to an exciting start! We spent two weeks doing a project on discovering Ice. The children were able to explore the properties of ice, its uses, and how it changes in different environments or when manipulated. A favorite activity of the children’s was being able to hammer a large chunk of ice into tiny pieces. The children were very interested in how when one piece is broken it makes more and more pieces the more you break it. We also really focused on upper and lowercase identification during this project using paper ice cream cones with lowercase letters on them and paper ice cream scoops with the matching uppercase letters on them. The Seals were able to match the letters and then count how many pairs they made and how many of each color (flavor) ice cream they had. This project ended with delicious ice cream sundaes where the children were able to emulate the steps to make and ice cream sundae modeled by their teacher and teaching assistants. We had an absolute Ex-SEAL-ent time!

Reminders:

- **February 11th**—Friendship, Love, and Kindness Party

*Details will be sent home and a sign up will be posted!*

February’s Adventures:

We are very excited about our center wide project coming up. We will be taking on the world of dogs with interactive activities, guest appearances (dogs!), and hands on field research. The children will guide their learning by creating a classroom web with what they want to learn about dogs and I will provide them with opportunities to explore the world of dogs throughout our classroom centers. By using the project method in the classroom the children get to take control of their learning and really get involved in exploring the world around them by complete immersion in the theme chosen (Dogs).

*February will also highlight friendship, kindness, and sharing themes in our classroom! We will have a classroom party and continue our quest to always Be Kind in the Seals room!*
Dear Parents,

I can’t believe it’s already February! During the month of January we learned three new letters O, R, K. We had much fun learning the life cycle of ice during our ice project the past two weeks! Your kiddos were given the opportunity to predict and create a hypothesis – this is Science in action!

We have fabulous plans for February! We will study dogs and we will be celebrating Friendship and Love. We will continue doing two week projects based on the children’s interests.

Math: We will continue working on number concepts
Science: We will make predictions and create hypothesis
Literacy: We will focus on letter recognition, letter sounds and pre-writing.
Physical: We will work on refining fine motor skills.

We will continue working on refining the social emotional skill of self-regulation. We are using active calming techniques such as deep breathing to help manage difficult, but developmentally normal fits. In our classroom we call it “being a S.T.A.R.,” which stands for Smile, Take a deep breath, And Relax. Three deep breaths will turn the stress response off in the body. I encourage you to practice this active calming technique with your child at home when needed.

Children will have opportunities to use dress up clothes for pretend play. We welcome your donations of clean, used clothing and purses for our collection. The kids LOVE real items to dress up with.

As always, if you have any questions, comments, or concerns please feel free to come and speak with me. Thank you for trusting me with your most precious treasures!

Developmental Goals:

- Fine Motor: lacing, finger tracing, painting with brushes, eyedroppers, scissors skills
- Gross Motor: walking backwards, hopping on one foot, and balancing skills
- Social and Self-help: delaying gratification, self-regulation
- Language: vocabulary development
- Phonological awareness: beginning sounds

Reminders:

Please label your child’s set of extra clothing, jackets and hats.

Now that the days are getting cooler, remember to dress your child appropriately. Please dress your child in easy to put on and comfortable clothes. We do go outside.
Howdy Parents!

January was such an exciting month! We had three new friends join our Sea-horse bunch, and we are so glad to have them. They have adjusted well thanks to all our “old Seahorses” who did a wonderful job of making them feel welcome and helping them learn how things go.

We started January by talking about bears and hibernation. All of our little friends thought this was very interesting. If you haven’t already be sure and check out our hibernation board outside our classroom, have your child show you their work on it and ask them about what they are doing in the pictures. This is a great opportunity to get them to tell you about things they have learned. Next came penguins and this was a very popular topic with everyone. We talked about different types of penguins, where they live, and what they like to eat. We practiced walking like penguins and even got to check out some penguins on a live stream from Sea World in Orlando, Florida. This was a huge hit and the children looked forward to checking on them everyday. Penguins were followed up by ice and snow. The children were able to play with ice, remove letters that were frozen into the ice and we talked about the process of making ice. We wrapped January up by starting our two week long project on dogs and the children love it. We can’t wait to continue this the first week of February.

Coming up in February we have lots of super fun projects planned. We also will be having our Friendship Party on February 11th so be on the look out for a sign up sheet of things to bring.

Reminders:

- Continue to encourage your Seahorse to practice being independent.
- Check to make sure your child’s spare clothes are weather appropriate.
- We do go outside everyday unless it is raining so please make sure your child is adequately prepared for the weather.
- Our cubby space is small and we have lots of children, please make sure your child’s things are labeled with their names and that their nap stuff is limited to one small pillow and one blanket. They may also bring one soft toy to rest with if they choose to.
- Continue to check in on the live penguin cam at home!!

As always, feel free to contact me if you have any questions or concerns!

Thanks & Gig’em!

Ms. Sarah
Welcome to February! It is a month full of hearts, love, and friendship. We will be celebrating “Love and Kindness.” I will be sending out a memo before our party. We will be having our Valentine’s exchange. Please remember that writing Valentine cards is a fun opportunity to practice writing our name. Some may even be able to write their friend’s and teacher’s names. Your children have been working very hard on dressing for the outside. Each day I see them become more independent and VERY proud of themselves.

We will be talking about Texas, and learning many fun things about our great state. Don’t forget about the Houston Livestock Show in March. The Livestock Show and Rodeo offers unique entertainment and educational opportunities for children and adults. This world-renowned event lasts all month and I recommend taking your children if you can! You can find more information at: rodeo Houston.com/

Fun Activities Outside of School: “7 Acre Wood”, located in Conroe Texas, near the Woodlands. 7 1/2 acre old-fashioned Family Fun Park! Visit the petting zoo, mini golf course, western play town, play fort, huge playground, gigantic sandbox, zip line, sand volleyball, horseshoes and much more. Healthy family fun that kids love!

Things to Do at Home:
Talk about what makes a person special
Read books about Groundhog and Valentine’s Days
Talk about oral hygiene. What foods are healthy for your teeth?
Practice your address and telephone numb

Number Hunt: Go on a treasure hunt for numbers. If you are on a car trip or running errands around town, challenge your child to find as many numbers as he can between 1 and 100. He'll find them on road signs, license plates, in the grocery store, at the library, and on a menu. Numbers are everywhere

Hide and Seek: Show your child a group of 10 objects (e.g., coins, small toys, bottle tops, barrettes) Ask her to close her eyes while you hide some of the objects under a napkin. When she opens her eyes, ask, "How many objects are hidden under the napkin?"

Patterns in Motion: Show your child how to make patterns by moving his body. For example, sit down — stand up — swirl around — sit down — stand up — swirl around — sit down — stand up — what comes next?) For younger kids limit the pattern to alternating sit down and stand up.

Feely Bag Fun: Put a variety of objects (e.g., ball, rock, apple, block, puzzle piece) into a bag. Invite your child to reach in, choose an object, and describe it to you. Tell him to guess what it is before pulling it out of the bag. Do the same thing with the rest of the objects.

How Tall?: Measure your child’s height three different ways (e.g., using spoons, blocks and index cards). Talk about what you find out.

How Heavy?: Find three objects that you can tell are different weights just by holding them (e.g., a pencil, book, and lemon). Challenge your child to put them in order from heaviest to lightest.

Obstacle Course: Create an obstacle course in your house using chairs, boxes, pillows, tables, and other easily movable objects. As your child moves through it, ask him to tell you what he is doing by using position words such as around, under, over, next to, right, left, etc.

Sincerely yours, Mrs. Carolina Bratlien
Howdy Jaguar Parents!

February is finally here! The month of January was a great start to our spring semester. I would like to say thank you to all of the parents who participated in the Scholastic Book Club once again this month. I would also like to thank Oskar and Edward’s parents for participating in our monthly birthday party! The Jaguars had a great time celebrating their friend’s birthdays. I would also like to thank all of the parents who have participated in our project over Pets. All of the pet visits, pet supplies donated, and pet pictures are very much appreciated. Lastly, I would like to say thank you to the parents who helped their children complete their “100 Days of School” project. A lot of the children were excited to share the 100 objects they found with the class.

For the month of February, the number of the month will be 10, the color of the month will be pink, and the shape of the month will be a heart. We will be introducing letters Z, I, and U. We will also be having two projects - each two weeks long.

At home, please encourage your children to start sounding out words. Have your child listen for the beginning, middle, and ending sounds they hear in each word and encourage them to write down the letters they hear. This will help immensely when they are working on their journals at the teaching table in class. If your child wants to learn more, talk about how they can use a “two-finger” space between the words in their sentence.

I would like to thank everyone once again for being so involved in your child’s education! If you have any questions, please feel free to ask.

Thanks & Gig ‘Em,
Ms. Jesi
Howdy Tiger Parents:

January was a busy month learning about Bears and Penguins. We had fun celebrating the 100th Day of School. Thanks to all who participated counting 100 things with your child and sending the family project to school.

We have been having fun with our two week project learning about “Pets”. Thanks to all who sent things to share in our classroom to make this project a success.

Since I am off on Friday’s we will have our Love and Friendship Party on Thursday, February 11th at snack time. The children may exchange cards with their classmates (no candy). I will put a class list of our friends in your child’s mailbox. Please help your child print each child’s name (clearly) on each card. They will have the opportunity to pass out their cards and match them to the child’s name on their bag. This will be a pre-reading activity that we will do at the teaching table. As an Art activity they will be decorating bags to put their cards in.

This month we will be talking about friends/friendship and what it means to be a good friend.

We will continue to work on independence in the classroom. The more we do for them, the less they are going to do for themselves. It is up to us as parents and teachers to see that they learn self-help skills. They will learn a lot with guidance and loving care along the way.

If you have any questions please feel free to ask.

Thank you,

Mrs. Kay
