Howdy, Parents!

Welcome to July!

This month, we will celebrate Independence Day with a parade and parent barbeque lunch on Friday, July 3rd beginning at 11:00am. We will also be doing another two-week study on music. If you have any musical talents (play an instrument, play in a band or for your church), we want you! We would love to have you perform for your child’s classroom of friends. The children will be learning about different genres of music, will be exposed to music from around the world and will learn about dance, learn new songs, learn about different instruments, play instruments, and have a lot of fun. Many of the classrooms are planning fun learning centers and the children will be experiencing karaoke, playing in their own band, performing for the friends, and enjoying all things music. If you have an instrument that is from your home country (or even pictures) we would love to have you come in and share this with the children. We are so excited about this learning unit and cannot wait to see all of the fun the children will experience!

With temperatures warming up, we wanted to let you know that we take the heat very seriously and will do everything that we can to keep your child safe from severe temperatures. Every classroom has their own coolers filled with ice and water to ensure that they have access to water. Since we are required to follow the state’s licensing guidelines, we must go outdoors twice per day. Mornings are usually not problematic but we do keep an eye on the heat indexes in the afternoons. The children will continue to go outdoors, however, we limit the time that they go outdoors and the rest of their time is spent in the multipurpose building. If the heat index is too high and it has reached the temperatures where it is unhealthy for young children, we will have them play in the multipurpose building for their entire outdoor play time. Our playground also has a combination of sunny and shaded areas and teachers are trained to recognize when the children are not well from the heat or if it is too uncomfortable for them to continue their play or if they should move indoors.

We hope you continue to enjoy the summer and we value the relationship we have with your family! Happy July!

Kisha
Howdy All,

We have had an awesome June. We played with all the homemade toys and loved it. Thank you to Malini for her donation. They are loving splash day! Mrs. Susan’s husband has made us the most awesome sprinkler. Speaking of splash day, please have your child dressed and sun screened on Tuesday morning when arriving at school. Bug spray if needed. We will have a picnic once a month. We look forward to an exciting month of fun activities. We will be studying music for two weeks. We will be shaking and grooving with some homemade toys. We also have a lot of art to go along with the theme. We have a messy unit this month. This would be a great time for them to come in play clothes.

Now to my favorite part - let’s talk about the little ones. Alice is doing so great. She has made a lot of friends. She loves the monster books, being outside and playing with the babies. CeCe is loving having Alice to play babies together. CeCe is enjoying all the homemade toys too. She loves the swings outside. Brooklyn is our little caretaker. She makes sure everyone follows directions. She loves playing with Daniel and the Bumblebee class. She is a chatty Cathy too. Vishaka is having so much fun with the homemade toys. She loves the musical stuff too. She loves being outside. She discovered the sandbox. Speaking of the sandbox, Lucas and Daniel love the big trucks in the sandbox. Daniel loves riding in the cars, too. He is so cute moving his little feet. Lucas loves playing with the Bumblebee class. We have such a fun class.

I will be gone on vacation from the 6th of July till the 20th. I can assure you they will be in great hands. I will miss them a lot, but I am looking forward to spending time with family.

Love, Mrs. Andrea
Howdy Wonderful Bumblebee Parents,

We learned so much in the month of June. The bumblebees are growing so much so fast! We had a great time reading stories from Don and Audrey Wood and learning about Dinosaurs. In the month June, we will talk about music and the zoo. We will also have a sensory fun week.

We have lots of fun during splash day. The children love to get wet and run around the water tables. We will continue to have splash day on Tuesdays at 9:15. Please remember to bring your child in already dressed with sunscreen on. So we can be on time for splash day. We also have a great time during our picnic. The Bumblebees really enjoy eating outside.

Just to let you know Ms. Ashley will be gone on July 1st – July 3rd and on July 9th. Please remember the weather is always changing and we want your child to be comfortable please dress your child according to the weather condition, as we will still be going outside. Please also make sure if your child has an accident to bring back an extra change of clothes the following day. We want your child to be as comfortable as possible and to be in clothing that fits them, having the extra change of clothing in their cubby ensures this.

The month of July is going to be HOT so we will have an ice cream party on July 31, 2015. I will send out flyers with more information as the end of July draws closer. I hope that all of our parents will be able to make it. The teachers and the TAs love being able to visit and talk with you all during our parties! If you have any questions or concerns, please do not hesitate to contact me at abush@bgcc.tamu.edu, I will return your emails as soon as possible.

With Love,
Ms. Ashley
Dear Parents,

The children had a wonderful month of June. They learned about Ocean, Beach, and Vacation. Also in June, we had our Splash Day and the children enjoyed playing in the water. Our Splash Day will be every Tuesday through the months of July and August. Here are some reminders about Splash Day. Need shoes (no flip flops), towel, change of clothes and sunscreen applied on your child in the morning before coming to school. We will reapply when we go outside in the afternoon. Check with Miss Rebecca or Miss Michelle to see if you have sunscreen in the classroom for the afternoon. We cannot share sunscreen with another child. If your child doesn’t have their things he/she will not be able to join the others at splash time. Another activity we did was a picnic. They had lots of fun eating outside. They enjoyed the nature scene while having the picnic. The picnics are once a month. Parents are welcome to bring food and eat with their children.

Tips of the Month:
Here are some activities that you can do when it is hot outside. The Great Wolf Lodge in Grapevine is a family-friendly environment and has a huge indoor water park. It is located at 100 Great Wolf Drive, Grapevine, TX 76051. Also you can go to the Arctic Wolf Ice. It is located at 400 Holleman Drive E., College Station, TX. They offer family skate time and even group specials. For a small fee of $3.00 you can even rent the ice skates. For the beginner skaters there are cones for children to hold on to help them glide. I hope everyone has a great and fun month.
Dear Parents,

We hope you all are having a wonderful summer! We would like to con-
gratulate Yihyun and his family on their new baby boy. We also want to wel-
come our new student, Omar, to our class. Welcome Omar!! On behalf of Ms.
Kristen, I would like to express many, many thanks to the Barbour family for
the girl’s clothing, and the solar system poster they donated to the class.

The weather is warming up, and we will continue with our splash days.
Our temperatures cool down. We ask that you bring your child to school that
day with his or her swimsuit on under their clothing, appropriate water shoes
(no flip flops), a towel, and sunscreen applied on your child in the morning be-
fore coming to school; we will reapply when we go outside in the afternoon.
FYI—sunscreen will not be shared with another child.

During the month of July, your child will enjoy projects involving music,
sensory fun, the zoo, and the 4th of July. The first two weeks of July will be a unit
study about music. This is going to be a two-week, center wide project learning
experience. During the first week of July, we are going to make a lot of red,
white and blue projects for our 4th of July celebration. The fourth of July is the
time of year when we have picnics, get together with families and friends, and
some of us go and watch the fourth of July fireworks.

As you all knew I was supposed to go on vacation from June the 18th to
July 10th. Unfortunately, my son became sick a day prior to my vacation so I had
to cancel my trip. Just a friendly reminder, please remember to sign your child
in/out on the clipboard by the door each day. Please don’t forget to bring a
blanket for your child to use during naptime.

Have a fun and happy holiday!
Ms. Mable & Ms. Kristen

Dates to Remember
- **July 3rd:** Fourth of July center wide Parade
- **July 4th:** Independence Day

**THEMES:**
- Music (first 2 weeks)
- Sensory fun
- Zoo

**COLORS:**
- Black

**SHAPES:**
- Review

**LETTERS:**
- Review

**NUMBERS:**
- Review

**FINE MOTOR SKILLS:**
- Cutting with scissors
- Ripping papers
- Washing hands
- Finger plays

**GROSS MOTOR SKILLS:**
- Dancing to music
- Balancing
- Riding scooters
- Playing tag
The Robin Class had great fun during June. We began our summer activities. Splash Days have been so much fun. Ms. Susan’s husband made the Center sprinklers out of PVC pipe that is awesome! It was like standing in a gentle rain shower! The children enjoyed studying about the ocean and beach. We were sad our first picnic was inside due to the rain!

We are looking forward to seeing everyone at our Fourth of July Parade and picnic. Using the Project Approach, we will be having a Center-wide study on Music. It will be fun to explore all the different ways to make music. If we have any talented parents, we would love to have you come and share with the class! We are looking forward to a fun week when the children explore with our senses! It could be messy!

Parent Tip: July is National Ice Cream Month with Sunday July 19th being National Ice Cream Day. It’s a sweet way to stay cool during the summer. Please take time to enjoy a dish of your favorite flavor with your child. You can talk about what you liked as a child. Ms. Sandy’s favorite flavor is Moose Tracks while Ms. Brittney likes Cookies and Cream or Chocolate Chip Cookie Dough. Feeling adventurous? You can find easy recipes on line to make ice cream at home using simple ingredients. Be brave and try a new flavor this month.

Note: Ms. Sandy will be on annual leave Monday, July 20th through Friday, July 24th. I will return Monday, July 27th.

Happy Birthday:
- Sherif – 7/4
- Bo Kyoung – 7/21

We will celebrate our July birthdays on Thursday 7/2/15 at snack time!
Summer is in full swing and the Hummingbirds are having a wonderful time! Splash day has been a huge hit, and the children look forward to it each week. We make it more inviting by having a new splash theme each week. The children enjoy a variety of experiences such as sprinklers, bubbles, washing the cars, and water fun in the sand box.

This month we will do a center wide project on music. The children will have many opportunities to experiment with various types of instruments, listen to many different styles of music, and see how certain rhythms of music can change how we feel. This is an exciting unit of study the children will enjoy. We will select music for our classroom that represents the current demographic of our class! If any of you have any special instruments or musical skills we would love your input or help during this unit of study.

If you are looking for a way to beat the heat this summer Adamson Lagoon in College Station just might be the answer! It is located at 1900 Anderson St. Each Thursday from 7:30-9:30 is family fun night, and the admission is half price. Adamson lagoon features a large serpentine waterslide, lily pad walk, and a fun splash area for toddlers.

Reminders

1. Miss Martey will be out July 22-27 for vacation.
2. Remember that we have Splash Day each Tuesday at 10:00. Bring your child dressed in their swim suits, ready to splash with water shoes and a towel. Be sure to apply sunscreen. Your child will also need a change of clothes and shoes after splashing. If your child does not have all the necessary items an alternate activity will be provided.
3. Fourth of July parade will be the morning of July 3rd. We welcome you all to attend and watch the children parade around the building!
4. Please be sure to let us know of any days your child will be out on vacation.
5. When dropping off or picking up your child make sure to sign in and out each time. This is a licensing requirement and a serious violation if it is not done. It is also important to ensure that the teacher is aware that your child had arrived or departed. It is very unsettling to look and notice a child who was there a moment ago is no longer there. You must always enter the room to drop off or pick up your child. Please do not lift your child over the gate to place them in the room, or remove them from the room. If you cannot open the gate we will be glad to help you!

Thank you!

-Mrs. Martey & Ms. Elaine
Howdy Parents,

Happy Fourth of July! Wow summer is almost over. These months are going really fast. The Seal have really enjoyed the summer activities so far. Everyone loved going on our picnic getting to play at a new playground, eating on picnic tables and walking across the street to get there was very exciting. Oh don’t forget Movie Day. The children really enjoyed “Frozen”. But I think that the Seals really love SPLASH DAY! Just a little reminder that splash day is every Thursday at 9:00 to 9:45. Please bring your Seal dressed in their clothes and shoe that can get wet, also apply bug spray and sun-screen upon arrival. Please bring an extra set of clothes, shoes and a towel labeled.

We are very excited for introducing our next center wide Project Approach on Music. We will be talking about music notes, instruments, sounds, sound waves, dancing and singing. We will explore different items that you can use to create music with and how they might sound if their pitch is high or low. Different types of dancing to reflect with the music. We would love for you to come and explore with us any time and share your musical wisdom with the class or center.

Our center wide Fourth of July Parade will be July 3rd. Followed will be a family lunch in your child’s classroom. More information will be coming soon.

**Fun tip for the summer:**

At Adamson Lagoon Swimming Pool located in the Bee Creek Park every Thursday is family night swimming. Admission is only $3.00 per person and children under 2 are free. There are age appropriate pools for your whole family. For more information please visit [http://cstx.gov/index.aspx?page=579](http://cstx.gov/index.aspx?page=579).

Mrs. Jamie’s Email—jamieg@bgcc.tamu.edu
Dear Parents,

The summer weather has begun with a bang! Please apply sunscreen and bug spray on your children every morning; we will reapply when we go outside in the afternoon.

We need your help! It is very important for safety reasons that children come in shoes that are securely on their feet. Tennis shoes are ideal. Children are able to be more independent if the shoes have closures they can do, such as velcro. Please do not send your child in loose sandals, flip-flops, boots, clogs, ballet slippers, etc. They are not appropriate for the many activities we do outside. Trikes, swings, running, monkey bars, and the climbing structure are an important part of the curriculum for children’s physical development. We want your children to participate in everything.

Last month, we discussed and learned about traveling, sea life, and summer. Your children had the opportunity to predict items to see if they would float or sink. We discovered that styrofoam trays were excellent floaters, but shells weren’t, and that cardboard only stayed aloft for a little while before sinking. This was science in action!

I want to make you aware of our plans for next month. In July we will be learning about America. To enhance the theme, we will be having a parade followed by a BBQ lunch in the classroom. Please come and join us!

If you have any questions on how to extend your child’s development and learning at home, please let me know. Thank you for all you do to make sure your child is ready to learn and be loved in the classroom!

Ms. Marina

Developmental Goals

Fine Motor: tearing paper, painting with brushes, journal writing, eyedroppers, and cutting with scissors, stringing beads

Gross Motor: walking backwards, catching balls, hopping on one foot, balancing skills

Social and Self-help: delaying gratification, self-regulation, sustaining and maintaining positive relationships

Language: letter knowledge, vocabulary pertaining to unit

Math: numeral/number agreement

Science: planting seeds, observing seeds grow.

Phonological awareness: beginning sounds, rhyming

Reminders:

- Please apply sunscreen prior to school arrival. Thank you!
- Please check your child’s cubby to make sure the extra set of clothes is weather appropriate.
- We have splash day every Thursday!
Dear Seahorse Parents,

We had a wonderful month of learning in June! Thank you to all the parents who brought in items for our “Travel Around the World” study. We have had a wonderful time learning about what to expect in summer, the regions of the world, the beach and life onshore, and the ocean and living things underwater. We hope that your child has enjoyed these lessons as much as we did!

As we move into July, we will begin with a week covering flags and fireworks in honor of Independence Day ending with a center-wide parade on Friday July, 3. We will notify you of the specific time, should you wish to attend, via a note in your child’s mailbox. A lunch consisting of BBQ beef sandwiches, potato salad, baked beans and fresh baked cookies will be provided to those in attendance. We hope to see you all there!

July is a very exciting month for us as we will be doing a center-wide two week study on music following the project approach where your child will have the opportunity to study music with hands-on, discovery method of learning. After the two week study of music, we will begin learning about the different aspects of the zoo and circus. To close out the month of July we will do an investigation of sports, focusing on gross motor skills involving balls of the various sports.

We appreciate your constant support and all you do for your child’s learning at home. Please be on the lookout for any important reminders or changes to the schedule. If you have any questions or concerns, please feel free to contact Ms. Ashlin or Ms. Jamie.

Sincerely Yours,

Ms. Ashlin & Ms. Jamie

amarriott@msn.com  ashlinsweet@tamu.edu
Take advantage of those bright sunny days and warm summer nights! Here is a list of fun activities to do together this summer. The best part is most of the activities are free or inexpensive.

- Volunteer at a nature center.
- Make a photo journal or a family yearbook.
- Have a luau in the backyard.
- Visit the beach and collect shells.
- Make a fort out of cardboard boxes.
- Visit a farmer's market.
- Pick berries at a nearby orchard.
- Have a picnic at a state park.
- Make ice cream.
- Go canoeing at a local lake.
- Build a sandcastle.
- Write and illustrate your own book and have it published into an actual hardcover book using IlluStory.
- Forget cooking -- set up an ice cream sundae buffet for dinner.
- Clean up trash at a local park.
- Have a backyard campfire...or just use the grill! Roast hot dogs on sticks, pop popcorn and finish off with s'mores.
- Stage an A to Z scavenger hunt, where you have to find something that starts with every letter.
- Make homemade pizza.
- Print out a list of books and visit the local library throughout the summer to read as many as you can. Caldecott Medals has a great list of books.
- Go for a walk and make a collage from natural objects you find along the way.
- Take bread to a park and feed the ducks.
- Have a water balloon fight.
- Practice your origami skills and make objects to hang from the ceiling.
- Go biking on a trail.

Sunscreen Protection: It is important to protect your child’s skin from the hot sun. We ask that you put sunscreen on your child in the morning before coming to school or on arrival. We will reapply the sunscreen in the afternoon before going outside.

Picnic Day: Our Dolphins will be going on a field trip to University Gardens Apartments where we will play on the children's play area and have a picnic located next to the community center. Please remember to have your child wear tennis shoes on that day.

Water Play Day: We will have water play day every Thursday in July and August. We ask that your child bring his/her swimsuit, water shoes, extra clothing, and towels. Wet towels and swimsuits will be sent home to be washed.

*Please make sure that your child wears water shoes for splash day because they will not be able to participate without them.

Special Events:

Friday, July 3rd – Center-wide July 4th parade/lunch with parents (Parents encouraged to attend and line the parade route, then have lunch in the classroom.)

George Bush Presidential Library and Museum

Family Friendly, Holiday, Special Events

The George Bush Presidential Library and Museum is proud to host the College Station Noon Lions Club’s "I Love America" Fourth of July Celebration, July 4, 2015 at the George Bush Presidential Library Center at Texas A&M University.

The museum will be open from 9:30 a.m. to 8:15 p.m. with free admission for everyone all day; building closes at 8:30 p.m. Concession stands will open at 5:30, and include: roasted corn, snow cones, FREE watermelon (while supplies last), Coca-Cola beverages, kettle corn, roasted nuts, and Slovacek’s Sausage. Live entertainment and games for children begin at 6 p.m. The evening will culminate with a spectacular fireworks display and concert by the Brazos Valley Symphony Orchestra. Come early and bring lawn chairs, picnic baskets and blankets. Please, no pets or glass containers.
Happy July!!

Thank you to all who attended the Parent’s Day breakfast and activities. We always enjoy having you spend time with us. Last month was a lot of fun. Our Picnic to the park ended up being a picnic in the class. The children enjoyed turning the classroom into a picnic. Movie day was also a lot of fun. We also enjoyed having some fun with our pirate theme, and learning about pond life and the rain forest.

This month, we will be learning about fireworks and flags. We will also be having a two week investigation on music and learning about folktales as well. Splash days will continue once a week. Please send your child to school in a swim suit, water shoes, and bring a towel and a PLASTIC BAG for wet clothing on Thursdays.

PROJECT APPROACH FOR PRESCHOOLERS

Research has shown that children learn best through meaningful activities. It has also shown that children’s skills are much more likely to be mastered if they have the opportunity to apply them in meaningful activities. (Katz & Chard, 1989)

Preschoolers like to investigate! They enjoy learning about the world around them. The Project Approach involves children in studies of things nearby that interest them and are worth knowing more about. Projects are like good stories. They have three parts: a beginning, middle, and end.

The first step involves finding out about the prior experiences the children have had which are relevant to the topic and brainstorming with them about what they know. The end of this step is asking what the children want to know about the topic, as well as their predicted answers.

Next is the field experience. This step can take several weeks. Once the topic has been thoroughly investigated, experts interviewed, visiting speakers featured in the classroom, books, posters, models, murals, etc. completed the children usually come to know much more about the topic than just their first-hand knowledge. Together, with guidance from the teacher and peers, they research the answer to their questions.

The last part of the project involves helping children share their work with others. This sharing offers the opportunity for children to review the highlights of the project and what they learned. Children take pride in sharing their discoveries, especially to their parents.

Our Music investigation should be filled with a lot of fun activities. For more information about this investigation, please see classroom teachers.

VOLUNTEER OPPORTUNITY: If you play an instrument and would like to come in and share your knowledge with the class, please let me know, we would be excited to have you. :)

Ms. Krista
Howdy Tiger Parents:

The children really enjoyed reading books and talking about Pirates. They had so much fun on their treasure hunt. They followed the map and read the clues that were left around the school until they found the “X” in the break room. Goody bags were found along with some ice cream as a special snack in the fridge.

Next we talked about Pond Life and made ducks out of paper plates. We turned our home center into a Rain Forest and learned about the different levels – the emergent layer, the canopy, the understory and the forest floor.

Next we will discuss picnics, flags, and fireworks as the 4\textsuperscript{th} of July will be approaching. We will have a parade on Friday, July 3\textsuperscript{rd}. You may come and eat a bar-b-que lunch with your child after the parade.

Next we will study two weeks of Music using the Project Approach. If anyone plays an instrument please let me know if you would like to join our class and play for the children. I know they will be so excited to hear you!

The last two weeks of July we will study Folktales. Children love to hear these stories. We will let them wear masks and act out some. We will read many versions and compare the stories, comparing their differences. If you have any questions please feel free to ask.

Thank you,

Mrs. Kay
